

Division of Waste Management

Underground Storage Tanks Section

The UST Section has the regulatory authority of UST installation and operation, investigations of leaking USTs and the cleanup of releases. The section also oversees and investigates non-UST petroleum releases.

CONTACTS:

Wayne Randolph, Environmental Regional Supervisor
James Brown, Hydrogeologist
Kenneth Currie, Hydrogeologist
Sarah Brown, Environmental Senior Specialist
Steven Klotz, Temporary Employee

Solid Waste—Field Operations Branch

The SW-FOB regulates safe management of solid waste through guidance, technical assistance, regulations, permitting, environmental monitoring, compliance evaluation and enforcement. Waste types handled at these facilities include municipal, construction and demolition, industrial, medical, compost, land-clearing waste, scrap tires and white goods.

CONTACTS:

Andrew Hammonds, Eastern District Supervisor
David Powell, Environmental Senior Specialist
Vacant, Environmental Senior Specialist

Superfund Inactive Hazardous Sites Branch

The IHSB is responsible for managing the assessment and remediation of sites that are contaminated by non-petroleum hazardous substances and pollutants. The IHSB staff member is assigned project sites throughout the eastern half of the State and oversees voluntary party actions, conducts work at orphan sites and enforcement actions at sites where there is an immediate threat to public health and the environment.

CONTACT:

Wilmington Regional Office

Environmental Compliance Branch

The Environmental Compliance Branch administers the solid waste rules and laws associated with the Septage Program to minimize the potential for harm to public health and the environment. The Septage Program has the responsibility for permitting, inspecting, training, and providing technical assistance to septage land application sites, septage detention and treatment facilities, and septage management firms.

Mike Turner Environmental Specialist
Roger Caulder, Environmental Technician

Division of Water Resources: Public Water Supply Section

The Public Water Supply Section regulates public water systems within the state. Public water systems are those which provide piped drinking water to at least 15 connections or 25 or more people 60 or more days per year. The PWS Section works with public-water systems to ensure the water supply is safe to drink. This is accomplished through inspections, source site approval, investigations, plans and specification reviews, operating report reviews, providing emergency response to water systems and by providing technical assistance to water system personnel, consultants and operators.

CONTACTS:

Heidi Cox, Engineering Supervisor
Vacant, Assistant Regional Engineer
Ryan Fox, Environmental Engineer
Tommy Overby, Environmental Senior Specialist
Michael Lewis, Environmental Specialist

Division of Energy, Mineral, and Land Resources: Land Resources Section

The LR Section reviews and approves sediment and erosion plans, conducts compliance inspections, investigates complaints, and initiates enforcement actions with regard to the NC Sedimentation Pollution Control Act of 1973, the Dam Safety Act of 1967, the Mining Act of 1971, NPDES Stormwater and State Stormwater. These regulations protect our streams and lands from degradation by soil erosion from mining and construction.

CONTACTS:

Timothy LaBounty, Env. Regional Supervisor
Jodi Pace, Environmental Engineer
Christopher Baker, Environmental Engineer
Mike Lawyer, Environmental Program Consultant
Lori Britt, Environmental Senior Specialist
Melissa Baker Joyner, Environmental Specialist
Penny Markle, Environmental Specialist
Nick Mills, Environmental Specialist
